ABOUT ME

I'm a web developer and graphic designer, always developing my technical skills to reach the maximum momentum of effort to give out the best result, I'm interested mainly in backend development and UI design, and I have a great experience in both.

WEB DEVELOPMENT PROJECTS

MedicalShare
Graduation Project (ZU)

- a website that enables users to find donors of medical supplies whose owners have abandoned them after completing the treatment process
- that connects both the donor and the beneficiary through posts placed by the owner of the medical equipment on the site so that one of the people in need can communicate with him and receive the medical supplies
- Role: Full-Stack Developer
- Tech Stack: Laravel, Php, Html, CSS, Js,Bootstrap
- GitHub: https://github.com/ahmadabdelhadi/Medical-Share.git

Adopt Animals
Adopt Animals Website

- The animal adoption site allows users to put their pets on the site for adoption and they can also adopt animals as well
- Role: Full-Stack Developer
- Tech Stack: Laravel, Php, Html, CSS,Bootstrap
- GitHub: https://github.com/ahmadabdelhadi/Adopt-Animals.git

WORK EXPERIENCE

Freelance, khamsat website
Jul 2014 - Present

- Within my work on the Khamsat website, quality was my address, and speed of implementation and customer satisfaction was the essential thing that distinguished me.
- I sold more than 960 social media services like (design, and marketing) to more than 688 clients with a rating of 98%.
- I have a great experience on Facebook, Instagram, and Snapchat
- I have more than 860.000 thousand followers on Snapchat and Instagram platforms.
- khamsat : https://khamsat.com/user/ahmad.bassam.1999
